Health & Safety

When driving into and within the Club grounds observe the **5 mph** speed limit.

Always **park in a designated space** and never park in the disabled bays unless authorised to do so.

Smoking is not permitted in any buildings and if smoking outside please ensure smoking materials are disposed of correctly.

Mobile phones should only be used in an emergency. The use of mobile phones is permitted outside the main building.

Emergencies

If the fire alarm sounds whilst in any part of the Clubhouse or reception follow the exit signs and congregate at the Assembly point in the car park.

First Aid / Accidents

If you or your playing partner becomes unwell or requires First Aid, please contact Reception on 01832 273267 or call 999.

If you or your playing partners have an accident or identify a hazard whilst on the course or premises please report it to the professional or reception.

A defibrillator is situated in the Clubhouse if required.

On the Course

Please read all notices prior to play and observe temporary signs on the course.

Parallel fairways exist on most holes, therefore, it is a player's responsibility if you hit a wayward shot you shout "FORE". Holes 5 & 6 have internal OB's to the left.

Crossover points exist that affects tee boxes on holes 2, 11 & 15. Be aware of players below these tee boxes.

Two rights of way cross the course affecting holes 1, 4, 10, 11, 14, 16, 17, 18. Be alert to vehicles and pedestrians.

An external OB exists to the left of the 12th fairway. When driving off be mindful of people fishing on the near bank of the lake.

Holes 9 & 16 share the same green. If 16th players are on the green then stand down on the 9th tee. If players occupy the 9th tee then stand down from the 16th green until teeing is complete. Do not play into 16th green when occupied.

There are 3 bells on the course (shown on map). Please ring the bell when exiting the 10th & 11th greens and clearing the top of the slope on the 16th.

A brook runs through the course and there are two ponds. Please take care when searching for or removing golf balls in and around these areas. Do not retrieve balls from the water.

Please be aware of slip and trip hazards around the course. Steep paths, grassy banks, slopes, steps and bridges exist on many holes.

Always repair pitch marks on greens and replace divots.

Greenkeepers when working on the course always have priority.

Access to the Greenkeepers buildings, storage and work areas is strictly forbidden.

Hazardous substances are occasionally applied to the course. During these times a notice will be displayed on the 1st tee box. Avoid ingestion by hand washing and avoiding hand to mouth contact when eating, drinking or smoking.

Suspension of play due to adverse weather conditions (e.g. lightning) will be signalled by a prolonged blast on a klaxon operated from the Clubhouse.
